

Media Release from Panaxea Australia

11 May 2010

The Chinese Peak Body on Oncology approved by the State Council of P.R. China has nominated Daniel Weber from Australia as its Vice-Chairman

The Oncology Specialty Committee (OSC) of the World Federation of Chinese Medicine Societies (WFCMS) approved by the State Council of P.R. China and registered in the Ministry of Civil Affairs of P.R. China, is an international academic organization with its headquarters in Beijing. The OSC is a world training body with as main tasks the determination and standardisation of academic studies and development of Chinese Medicine and oncology in particular and to conduct academic activities for the purpose of promoting international exchange and cooperation.

Daniel Weber, PhD MSc, a leading expert in integrative oncology is the only occidental to be nominated to the OSC. Dr. Weber will accept the Vice-Chairmanship at the 3rd International Congress of Integrated TCM-Western Medicine Oncology to be held June 10-12 in Ningbo, China with a keynote address on the subject of *Breast Cancer, Inflammation and Botanicals*.

Dr. Weber first spoke in China in 2008 at the International Congress of the Society of Integrative Oncology (SIO), which was held in Shanghai. Recently Dr. Weber lectured in Johannesburg, subject: *A Life Free of Cancer*. Daniel Weber frequently hosts training seminars to professionals in the US, Australia, Europe and South Africa. His most recent publications are:

- *Inflammation and the Seven Stochastic Events of Cancer*
- *Introduction to Integrative Oncology*

- *Chinese Herbal Medicine and Psychophysiology*

Daniel Weber is also conducting clinical trials at the famous Guang An Men Cancer Hospital in Beijing on specific products and compounds for the treatment of breast cancer. Daniel is honoured and humbled by this acknowledgement and feels inspired to further bring complementary medicine into its rightful place in oncological practice.
